Floodtide Of Rank Perjury.

Witnesses In Kingston Election Trial Swear Griss-Cross.

Witnesses Swore That They Got Money, But the Alleged Brothers Swore That They Did Not Pay Any Money, and the Charge Would Be Dismissed—Fifteen Charges Dismissed, Four Held Over.

Kingston, Nov. 1.—The second day of the election trial resulted in four charges being laid over and fifteen dismissed. Evidently there was a flood of perjury that was devastating to nearly everyone in the court room. Edward Gillies, this will be gone into later. Thomas Scott swore he got \$3 from R. J. Carson. He declared the latter came to him several times before and, shaking his finger at him,

said: "I'm not a month's feeling you." Witness tried to get money to skip out before the trial. R. J. Carson denied the story and the charge was dismissed. Charge No. 111 was also against R. J. Carson. Mr. McEwen, whose husband died last May, swore that R. Carson left an envelope with her for her husband. Confessed with R. J. and T. A. Carson, brothers, who are much alike, also pointed to T. A. Carson, and the charge also fell through.

Charge No. 12 was that James Stewart and Joseph Kehoe gave money to Robert Kemp. Kemp swore that he came home with his wife and his envelope with it for her husband. Mrs. Kemp swore that Joseph Kehoe left it for her husband. The charge of the latter being guilty of the crime was also dismissed. Charge No. 13 was that James Stewart and R. J. Carson, who was on his knees to the latter, swore that he was a member of the latter's family. The charge was also dismissed.

Charge No. 14 was that James Stewart and R. J. Carson, who was on his knees to the latter, swore that he was a member of the latter's family. The charge was also dismissed.

An interesting charge was one against John Johnson, a chess player in Queen street Methodist Church, who swore that he ordered half a ton of coal and a bag of flour for John Brown just before the election. He said it because the family needed it.

child was in an "easy" state was \$250.00 to pay for the same was afterwards left at his home just before the election by an unknown. He had two sons and a daughter. The father was also discredited. The father was also discredited. The father was also discredited.

Two Charges Reversed.
 Charge No. 112 was against C. P. Gendreau, late manager of the Hamilton & Ontario Navigation Co., having a rig from Augustus Thompson. Thompson denied getting any money, but had received a note of \$10 from him and gave a note. C. P. Gendreau admitted the note and said it had not been paid until after the election. He said he had not asked for it then owing to the protest being on. There had been no contact with Thompson for several days. Decision was reversed.

Another reversed, decision was on charge No. 113 and 114. That James Stewart and R. J. Carson, who was on his knees to the latter, swore that he was a member of the latter's family. The charge was also dismissed.

St. Petersburg, Nov. 2.—The Imperial decree creating the Cabinet Minister under the Imperial manifesto to grant a constitution was gazzeted yesterday morning and has already aroused criticism as the measure is extremely complicated and smacks of the old-fashioned bureaucratic regime.

While the Cabinet has no authority to make laws within the competency of the legislative bodies, no measure of "general importance" can be introduced into the chambers without the sanction of the Cabinet. Another important requisite for the project is unanimous approval by the Emperor and receipt of instructions. This would seem to make the final stage of the project a mere formality.

Moreover, all questions affecting the Imperial court and domains, the army and navy, foreign affairs are officially excluded from the competency of the Cabinet without direct

democrats within the ministerial cabinet. The army is alarmed, six of them escaped. At Orsk, the army was broken up, and many people killed. At Tashkent, Russia, Turbatanov, the head of the army, issued the imperial manifesto granting full rights to the peoples of the Central troops territory. Cossacks and soldiers were ordered to leave the territory, the anti-government demonstrations were stopped, and the government burned Government property, battalions of the army were sent to the troops. There were many victims. At Shekopsai six persons were killed and 100 were wounded. The 1st Squadron "Vice-Admiral" Birlik's troops were sent to the front from the Turkish coast.

The commander Brighter, the commander of the army, said: "The prospects of the country require the army to be reformed, much brighter today. While the revolution is in progress, the army of the reds seek to realize that they have received the right to pass matters to the hands of the people. They surrendered, but trains are already being sent to the front, and the backbone of the army seems to be broken."

The council of the workmen's district of the city of Tashkent, Russia, at noon today, but on the council of the city of Tashkent, Russia, made no great news.

The railroad station of Tashkent, Russia, is being attacked, and the fighting is continuing the strike.

"Royal Household" is in a class by itself.

Flour that gives full nourishment and double weight to digest is not good flour.

Cheap and inferior flour gives the digestive organs double work and half pay—inferior flours contain indigestible waste—this waste must first be overcome by nature, that means extra digestive work.

Indigestibles destroy the nutriment of flour, therefore poor flour gives more work and less nutriment to the system.

Royal Household Flour is in a class by itself—it is the only really pure flour—and it is pure because it is purified and sterilized by electricity—it is the most easily digested and most nourishing because it is absolutely pure.

The moment a woman puts her hands into "Royal Household" she knows it is a finer flour than she ever used before.

WHEN buying a range the oven construction should be your first consideration. In baking and roasting qualities are of the utmost importance to you. A poor oven means ruined food, waste of coal, late meals and many heartaches. The Imperial Oxford Range is the result of years of experience and scientific study. It has taken years to perfect, and no one else could duplicate what you see here. There are a number of exclusive features in the construction of the

Imperial Oxford Range

that give it advantages found in no other. Of these exclusive features the most important is the best-diffused heat. This heat draws the cold air in from outside the range, expels it and distributes it through perforations in the top of the oven. This insures fresh, fast drawn fire throughout the oven, the main vapors of the oven being driven off by openings provided for the purpose. The Imperial Oxford Range has, in its construction, given a dry, even heat, better cooking or bakes an article thoroughly and evenly, the heat is all parts of the oven is equal, the fire side being no hotter than the other side. If your dealer doesn't handle the Imperial Oxford Range, write to us and we will send you our catalogue and tell you where you can see the range.

Why Tea Quality Varies

YOU know how the quality of strawberries from the same patch will sometimes vary from one day to another.

One day sweet, compact, well ripened, well-colored, richly flavoured—next day it rains, is cloudy, following picking is soggy, sour, green, and the quality is poor. The day after, the weather is sunny, and the picking and during the curing process is very susceptible to weather changes. A few hours of sunshine or bad weather after picking may make the difference between good and poor tea.

So that while one picking may be first class, the next from the same garden may be very poor.

I select only the pickings which come up to the Red Rose standards of quality. In the Indian, and the delectable and fragrant in Ceylon tea, and thus that "rich, fruity flavor" of Red Rose Tea is produced and maintained.

THE HORSE.

Person in Breeding.

Horse breeding has been especially disappointing to our country, says a writer in *The Country Gentleman*, because the reason that breeders have so often failed to produce the kind of animals which they desired. Nevertheless, there have been many good ones to be produced in this country, and many more, if the breeding principles are the same, and the care is the same, as in the case of the horse. The horse is a creature of the blood, and the blood is the life of the horse. The horse is a creature of the blood, and the blood is the life of the horse. The horse is a creature of the blood, and the blood is the life of the horse.

Considered the one element of the horse, the blood is the life of the horse. The horse is a creature of the blood, and the blood is the life of the horse. The question of fresh air for poultry has been a subject of much interest in the last few years. It is now a well-known fact that the health of the poultry is greatly affected by the quality of the air in which it lives. Did you ever have your range grates burn out?

If you did you know what that means in common ranges—it means plumbers, rangers, mud and big bills—because common ranges are built in that way.

As range grates must some time burn out you are certain to have that kind of trouble if yours is a common range.

If you have the Pandora you won't have any trouble, because you can take out the old grates and put in the new ones in ten minutes, and it costs only a few cents.

NOT A "PATENT MEDICINE."

Scott's Emulsion is not a patent medicine. It has no secret ingredients.

Your doctor can, no doubt, tell you as much about it as we could.

We have merely perfected the method of blending the Norwegian cod liver oil, hypophosphites of lime and soda and glycerine.

As one grocer will blend coffee better than another, we have succeeded in making Scott's Emulsion a little better than any other cod liver oil preparation.

There's no "patent" and the only secret is the secret of knowing how, with the perfected mechanical means at hand to do it.

Get Scott's and you get the best of the best.

For regaining strength and flesh lost through wasting.

Horrible Holocaust.
40,000 People, including Military, Band and all the people burned in a Theatre at Temuk.
St. Petersburg, Nov. 3.—The revolution has been recorded in a horrible way. The theatre at Temuk, which was crowded with 40,000 people, was burned to the ground. The fire started in the balcony and spread rapidly. The firemen were unable to reach the theatre in time. The cause of the fire is not known. The theatre was a famous one and the loss is a great one.

Now, why don't you have a "Fandora"?

Now we have shown you that the Fandora is a good range.

—that it is easily managed,

—that its gauge remains level,

—that it is taken out and replaced without expense,

—that you can cook on the top and bake in the oven equally well at the same time,

—that it is the only range with a single piece enamelled steel reservoir,

—that it has the best broiling door,

—that it has an absolutely reliable thermometer,

—that it is most economical, because it does its work with least coal.

Now, why don't you have a "Fandora" and be certain you have the best range?

NOW ABSORBS POLAND

**Russia Has Served Notice on
the Polish Nationalists.**

**This Country is an Integral Part of
the Empire of the Czar—Emperor
Proclaims Martial Law in Poland**

St. Petersburg, Nov. 11.—Poland is not to be permitted to become a geographical Finland. The Russian Government is of strongly worded communication

published yesterday morning, served notice on the Polish nationalists that the ancient kingdom of Poland has now become an integral part of the Russian Empire, and that while the Government intends to fully observe the national rights of Poland, any attempt to wrest Polish autonomy from the Emperor would be considered an act of revolt.

The message says:—"In accordance

With the ukase of December 25 last, the exceptional laws hindering the free development of the nation were abrogated and the Poles were given the same rights as the Russians.

"The general measures adopted by the Government were extended to Poland, which also was given the right of participation in the duma and freedom of meeting. Finally, on October 26 the Poles were fully recognized as

Dangerous and Insolent.
 "Forgetting the painful lessons of the past, the politicians who are directing the national movement in the Kingdom of Poland are making attempts as dangerous for the Polish population as they are insolent toward Russia to bring about the separation of the country."

There could obviously be no question of realizing pacific principles in a country in revolt. Therefore, for the restoration of order all the districts of the Vistula are temporarily declared to be in a state of war.

The future of the Polish people thus depends upon themselves. The Government having a desire to continue safeguarding the integrity and national unity of the Polish people.

extruded by recent legislative acts, expects the people to recover from the political intoxication which has come over the kingdom of Poland, the population of which has become a prey to the agitators, while at the same time it is putting the people on guard against entering a dangerous path which, unfortunately, they have not for the first time trod."

The formal proclamation of martial law throughout Russian Poland and the promulgation of the Government's intention to suppress the Polish movement to secure autonomy almost created a panic on the bourse yesterday, imperial funds again falling to \$5. Industrials seem to have no bottom.

Effect that the Imperial ukase was issued over Count Witte's head at the instigation of the reactionaries, which is equivalent to the count's retirement, but it can be stated with positiveness that the action was taken upon the Premier's advice.

The danger is that the Poles may provoke an active measure which would mean nothing short of civil war. The number of troops, 600,000, in Po-

Insurance Investigating Committee Also
Peremptorily Orders High Salaried
President to Demand an Accounting
From Hamilton of a

New York, Nov. 14.—John A. McCall, president of the New York Life Insurance Co., was called before the Legislative Insurance Investigation Committee yesterday and peremptorily ordered by the committee to deposit a statement.

by the Committee to organize the return from Europe to the United States of Andrew Hamilton, the lawyer who had charge of the legislative matters for the New York Life. Mr. McCall was further ordered to demand an accounting from Hamilton of the money expended by him, and of the balance which he owes the New York Life. Mr. McCall denied that it was the policy of his

company to have Mr. Hamilton remain abroad until after the investigation had been concluded, and said that on the contrary he would very much like to have Mr. Hamilton return.

Another interesting line of examination

tion was opened up just before the adjournment for the day, when John M. Glinner, an employee of the Equitable Life, produced letter books and memoranda showing instructions from former Comptroller Jordan of the Equitable to A. C. Hegeman on Stand.

Other witnesses yesterday were John P. Hegeman, president of the Metropolitan Life, and Vice-President Flanagan who were interrogated along the lines of agents' salaries, legal expenses of the company, real estate holdings and the method of disposing properties.

When Mr. Hegeman was asked to stand the statement of his syndicate's participations was read. It covered a period of ten years and witness admitted that the syndicate had netted him about \$150,000.

\$16,000 he paid into the treasury of the company in May or June, 1905. The payment was made after consulting counsel, when the Equitable trouble was in the public eye, last spring. Witness said he did this, not because he had done anything wrong, but he did not want to have anyone feel that he was taking advantage of the company.

With this in mind, this, not because he had done anything, but because he did not want to have anyone feel that he was taking advantage of the company's loss or his connection with it.

Got Special Rate.

The low rate of interest at which Mr. Hegerman secured loans and the rebates of this interest from Mr. Hegerman received from the old firm of Hegerman & Co., was another thing which was not disclosed, but fixed by several members of that firm, which has since gone out of business.

The firm was the banker of the Metropolitan, but since March the business has been taken over by Wm. Read & Co. Mr. Read was a witness yesterday, and said that Mr. Hegeman got the loans at a rate below the market because Mr. Hegeman had been a client for a number of years and because of the volume of business he transacted with the firm.

Joyous, balanced, immune from

misadventure.

And be your greatest strength but this:

Be.

Our farmers, says the Kingston News

and Times, are very much like other

people in their view of the

tariff. The other day their representa-

tatives appeared before the

tariff commission, and advocated an

increase of the duty on all they

had and the removal of all duties on

everything else they had to buy.

The new era in Russia will be mark-

ed by a change from the Julian to

the Gregorian calendar. The use

of the old calendar, which is thirteen

days behind that of other civil-

ized countries, has been the source

of infinite confusion. The At-

torney General has already sub-

mitted a plan to shorten the year

to begin March 1 in the new

year.

It is true that a German company

has acquired the Whitehall mil-

lary estates in Wales, the ac-

quirement of which seems unlik-

ely around a year of adverse con-

ment in England. The feeling thus

existing has been somewhat mod-

ified by the statement that the ex-

port from the soldiers amounting

to 3,000,000 tons per annum will be

sent to the highest bidder. In the

event of trouble with Germany,"

the manager says, "it would soon

be made clear by this country that

Germany was not to benefit at the

expense of Great Britain."

Lucy Doty in England said that

there is a race there just now

among people to improve their

complexion. The favorite here is the

Japanese flat, which is described

as a "clear" face.

United States Trust Trust's re-

port, just published, says that

American paper currency "is sub-

ject to very rough usage, which

soon reduces it to a condition un-

fit for circulation." The same is true

of Canadian paper currency. A

large per centage of the one and

two's should be retired in and re-

placed after becoming in use of

the laundry from log use. A year

or two ago an effort was made to

do this, but it failed. The old com-

plaints about "tainted money," dirty

money passed current as a mat-

ter of course.

The "Children in the Temple" in

London are offering to contribute a

belt to a chain at the birthplace

of Lord Nelson, says the London

Free Press. Will not the men and

women of Canada send their suit

to swell the Queen's relief fund for

the unemployed? The sum of the

offering goes to Old London ap-

peals to the charity of mankind

throughout the Empire. It is

one hard to be called by the well

fed, well clad and comfortably

housed citizens of the Empire.

London, one in ten thousand of

city like our own is so badly off

for the sustenance of life as to

live on the margins of life as to

two millions of the people in the

United Kingdom are working and

starving—on, out—on in all the

city. Our people know nothing of

the suffering poor of London.

It is a "Charming" and "amusing"

member of the anti-social

movement, says the Standard.

It is a "Charming" and "amusing"

member of the anti-social

political influence. The demand of

educational privileges for the ad-

herents of the Church of Rome is a

widely different thing from the

desire with members of the

churches to have for religious

element in education. The Pope

and nearly a Church is a for-

given power, demanding allegiance

as superior to the State, prohib-

iting its hostility to the liberal

principles of modern civilization,

and insisting on the most un-

manly, the Syllabus, its right to

the use of force, it seeks into

every nation to exist, an organ-

ization of inferior, political and so-

cial, for the promotion of the in-

terests and the extension of its dom-

inion. The Franco-German war was

entirely the work of the church-

men, and so have been the mar-

tinizations for the subversion of the

French Republic which have been

of France at length into the remain-

ing of the Concordat, by which

the French Republic is bound to

recognize the Pope as the head of

the church, and so have been the

Herpicide Produces Marvelous Results.

The Lady whose photograph is here reproduced—writes the following letter about

Newbro's Herpicide

"The Original Kennedy that 'kills the dead-end Germ.'"
Dreaded Mite!

I am sending you my photograph to show what Newbro's Herpicide has done for me. Since I first started to get the ugly mite on my own hair, I have used it exclusively in giving me curly, clean-cut, and wavy—without any loss.

I would not think of not using it.

Sincerely,
LA CONNOR.

The natural beauty and abundance of this lady's hair is a striking illustration of what Herpicide will accomplish, and this is only one of a thousand of letters that the Herpicide Company have on file from people all over the world who are pleased to tell of the marvelous results obtained by the use of Herpicide.

In addition to the Bank's strong position in financial centre position to extend the hours of banking will at once make the Montreal branch popular to the business community. The opening of the Bank open day and night at the convenience of the public requires. Only recently a Bank to keep open day and night was laid in the city of New York, and its success has been phenomenal. The convenience and facility for handling business transactions applied to the merchants and general public.

It has been decided to offer the stock of the Montreal Bank of Canada at a premium of 25 per cent. The premium, it is contended, will allow the Bank to commence business with its intact, together with a good loanable reserve fund after paying off expenses.

It has been also decided to issue a branch of the Bank in Boston as soon as fully organized, which will be early next year.

Application for stock may be made to the Montreal Bank of Canada. Toronto. Cheques, drafts, money orders and other remittances

be filed by a well-known financier.

THE TARIFF ENQUIRY.

Wellington Farmers Blame the Commission Upon the Present Tariff.

Guelph, Nov. 22.—The Tariff Commission held an enquiry in the Court House yesterday, when representatives of various bodies and concerns presented views. The attendance

A stipulation from the farmers of Western Canada was that the report of Warden James McWilliam, who read the report of the Commission on the part of the farmers of Wellington to the Commission, was the cause of the investigation, and the object of which was to determine the rights of the consumers. That the proper remedy was to be sought in the courts, and not in criminal prosecution or the refusal of protection from certain specific actions, was also stated. The result will be found only in the reduction of the price of the product to its cost basis; we are furthermore of opinion that the Commission should not be recommended by manufacturers through evidence of which, or others after that, to refuse to permit the destruction of plant, the payment of which would be a loss to the consumer. It is abundant proof that any manufacturers who refuse to reduce their prices can easily reach such reduction. Certain it is that farmers whose main business is to produce food for the bare wage property due their families, and who are not in a position of luxury bearing even their present burden, are not to be expected to increase their burdens would, under the circumstances, be an act of injustice."

To Confer With Sir Wilfrid.

Victoria, B. C., Nov. 13.—Premier McBride and Finance Minister Tallow left last night for Ottawa, where they have an appointment with Sir Wilfrid Laurier for early next week. The business to be discussed is merely a variety of departmental and detail matters. The Ministers return in mid-December.

Guilty of Manslaughter.
Toronto, Nov. 22.—The coroner's jury last night brought in a verdict that Fred Millar came to his death from a shot fired from a revolver in the hands of Daniel Carter during a scuffle, and held Carter guilty of manslaughter. The men were race stable employees.

London, Nov. 19.—(C. A. P.)—The

proposed memorial in London to colonialists who fell in the Boer war will not be erected. The committee have given instructions for the return of all subscriptions, and have decided to abandon the idea. It is stated to be impossible to find a site appropriate for the purpose.

Can't Float the Bavarian.
Quebec, Nov. 13.—After a consultation among all concerned in the attempt to float the steamer Bavarian, it has been decided that the vessel cannot be got off till next spring, and all

Further attempts have been abandoned for this fall.

Battenberg at Gibraltar.

Make Your Money buy Better Clothes

Don't be satisfied with ordinary kinds, such as you have known in by-gone days—there are better to be had. Instead upon having and garments tailored garments that can't be gotten from those that are built to order. Such clothes are possible—there is a certainty here-in fact those have the only kind made that are put on—on you can see it in the shape of the coat, the shirt, the vest, the trousers. Only hand-tailored clothes can have and hold this style. Prices here are based on actual cost, not appearance. We can prove it. Look your clothes till here will be less than it would be elsewhere. Economy comes only in the wear of your clothes.
